Membership Application Form

The Burden Lake Improvement Association, Inc. (BLIA) was created in the early 1960's as a social organization. In order to maintain a visible presence, a clubhouse was constructed to provide a common place for its members to gather and promote goodwill between the members and the community. This original forum quickly changed into one that is primarily focused on the environmental quality of the lake and its surrounding's.

This original intent still exists today, but its members now play an even more crucial role is preserving this great resource. This application for membership is two fold. The clubhouse is maintained through dues and social events scheduled throughout the summer months. Funding to maintain the lake for today and future generations is derived through donations designated specifically for water quality.
